PROVIDE GOOD GOVERNANCE OR QUIT

Comrades,

Whenever public as a whole adopts to action, the great among the greatest dictators are thrown down. These days the TAHRIR SQUARE of CAIRA the capital of EGYPT is the witness of such an activities. Country's youth in lakhs in number have gathered with flags of democracy on the Tehrir Chowk and are demanding in one voice the ouster of 30 years dictator Shri Husni Mubarak who has not allowed people's voice to come out during his tenure. Even USA – the greatest friend of Egypt so far – is now getting a rid of the friendship and desires Mubarak to Quit and hold election. A few days back only Tunician President had to run away from the country but robbed the country with 1 ½ Ton of Gold which he took away with him. These are the natural consequences of corrupt and non-governance coupled with heaviest of atrocities on the public at large.

Some days back when the legitimately established Govt. of Republic of France started to extend the service period of working people negligent of the unemployed masses, people took to the streets and Govt. was forced to think on the lines on which public at large thinks.

On last 30th January various labour organization in the country demonstrated against rampant corruptions in various cities which denotes and can be treated as a forecast for brewing harricanic movement of people leaving behind a severe warning to corrupt officials and Govt. that no more tolerance exit in their heart.

The ensuing march on 23rd February, 2011 of all the labour organization of the country unitedly on the Parliament of the country is step towards the attitude of the present Govt. against price rise, unemployment, social security, privatization, non-observance of labour laws, atrocities on the unorganised labour, selling of even Govt. PSU's. Should the Govt. of the day not read the writings on the wall even now, there will be no time lost in mass public movement taking shape.

All India Railwaymen's Federation is a part of this movement and we do not want to remain mere partners but also be partners in the struggle waged by the 45 crores labour force of the country.

Let us become the leading light of the movement unitedly.
