

Anna's Victory – a reminder of J.P. Movement

The fast unto, death undertaken by Anna Hazare has shook the Government within four days only and compelled it to bow-down before the wishes of the people. Once again, the people of the country have proved that any struggle any movement if launched with due honesty and truthfulness, can never be suppressed and the fact that truthfulness may be get hinderesseses and harassments but can never be defeated.

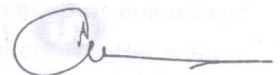

People's anger against the opportunistic alliance between bureaucracy and politics to loot the nation for their selfish ends, was visible. People were agitated against the corruption and dishonesty and a feeling of helplessness had engulfed and choked the atmosphere in the country which was yearning for one honest leader and found Anna Hazare as their real guide and saviour; Entire country and people from all walks of life – youngsters, elderly, highly educated, illiterate, rich and poor – every body joined the anti corruption movement in a spectacular way which was not seen even during freedom, struggle, otherwise also these indigenious "Angrej" had crossed every norms of civilities and greed and English rulers had been left far far behind in committing loot of the country. The corrupt rulers have shamelessly put the honour of the country at stake.

J.P. movement has once again been revived by Anna Hazare. J.P. had come forward in support of anti corruption struggle of Gujrat students and in no time the movement had engulfed like wild fire entire country. Jai Prakash became Lok Nayak who gave the slogan "Relinquish the throne or people are coming" not for begging but for a fierce battle. Although, those in power tried their best to make the revolution a failure but the same was absolute success at last. Unfortunately most of the pupil of Jai Prakash Ji could not prove their worth while in power and many of them failed to keep the cherished dream of people of this country.

Entire country is celebrating the victory of Anna Hazare and is observing the "light" festival of democracy. But the corrupt and self centred bureaucrats and politicians will not be able to digest this and will do their best against this victory.

I believe, the face of people's revolution that had become visible during last 4 days is the ray of hope for our democracy. I am pleased to note that a large segment for AIRF had participated in the movement from front row and we are proud of their activities.

Now I call upon all to come forward not only to support this people's movement but also to face bravely and decidedly defeat the forces who are opposed to this peaceful revolution.
